## Lignator

### Eco-friendly cast-iron wood boiler

Lignator is a modern and eco-friendly cast-iron down burning wood boiler which meets the very strict Class 3 emission conditions of EN 303-5 standard. The boiler is determined for hot-water forced circulation heating systems only. The security device against overheating is obliged for closed heating systems. It is very easy to operate.

**Advantages:**

- high efficiency up to 89,6%
- ecological operation
- firewood humidity up to 20%
- five years boiler block guarantee
- high service life of the Czech made cast-iron exchanger
- water-cooled fixed grates
- easy operation and maintenance
- threaded flanges for easy installation
- possibility of additional output change

**Fuel / fuel humidity:**

- firewood, up to Ø 100 mm / <20%

**Boiler output (according to section number):**

- 13,5~34 kW
